The Food We Eat

PROPER FEEDING means more than having enough food —it means the right kind of food. To be well nourished we need a balanced diet. There should be a liberal amount of fruits and green vegetables for they maintain and build blood and bone, regulate the body and furnish it with roughage.

Meat, fish, milk, cheese and dried beans and peas which build muscle and repair tissue should also have a place in the diet. Science tells us that meat in small quantities is necessary for a healthful diet. Children should not have meat more than once a day; adults also can get along very nicely with meat once a day.

We need foods which produce heat and energy such as starches found in cereals or grains, bread, flour mixtures and the starchy vegetables and sugar molasses, sirups and preserves.

Fats, which are found in oil, butter, cream, fat meats and nuts should be eaten in moderation.

A Few Useful Suggestions

It pays to buy clean food from clean stores.

It is cheaper to buy in larger quantities.

Food should be kept clean and covered.

Milk and cream should be kept covered in an ice-box.

Salad plants should be washed and left in a cheesecloth bag in an ice-box before serving.

Meat and fish should be taken out of paper wrappings when put in an ice-box.

Cheese should be wrapped in a clean cloth, dampened in vinegar, and kept in a cool, dry place.

Flour, meal, powdered sugar and soda should be sifted before measuring.

Mustard and baking powder settle in the can and should be stirred lightly before measuring.

Salt or sugar lumps should be broken before measuring.

One tablespoon cornstarch thickens as one egg.

One egg equals one-half teaspoon of baking powder.

BEVERAGES

COFFEE

Coffee should be purchased for family use in small quantities freshly roasted and finely ground. Many kitchens are equipped with a coffee mill. This makes it possible to grind the coffee as needed. Ground coffee should be kept in air-tight tins, because it loses its aroma and flavor quickly.

FILTERED COFFEE

6 tablespoons finely ground coffee — 6 cups boiling water

Put coffee into filter and pour the freshly boiling water over it gradually. After water filters through coffee (it must be kept hot), pour off and return a second time, and sometimes a third time. Remove strainer before serving. If stronger coffee is desired, use 1½ tablespoons coffee for each cup water.

BREAKFAST COFFEE

½ cup finely ground coffee — 4 cups cold water

The usual rule is 2 level or 1 rounded tablespoon of coffee for each cup served. Add the cold water to the finely ground coffee and let heat gradually over a slow fire. After the coffee boils up three times, remove. Let it stand where it will keep hot for several minutes and then serve.

NOTE.—Keep the inside of the coffee pot scrupulously clean, as coffee absorbs odors and flavors most readily. Always scald the pot before using.

ICED COFFEE

Prepare a strong coffee. Fill tumblers half full of cracked ice and add to it the coffee. Add sugar and whipped cream to taste.

TEA

Freshly boiled water should always be used in making tea. This is important because water below the boiling point does not develop the full flavor of this beverage. Scald an earthenware teapot, put tea in, allowing 1 teaspoon of tea to each cup of freshly boiling water; pour over it the boiling water; cover closely; let stand for three to five minutes without boiling; pour at once. It is advisable to strain tea from grounds. A tea-ball may be used, and allow the same proportion of tea to water. Place tea-ball in cup, and pour over it freshly boiling water. Remove tea-ball in a minute or more, according to strength desired.

COCOA

2 tablespoons cocoa — Pinch of salt — 1 pint scalded milk
2 tablespoons sugar — 1 pint boiling water

The general rule is ½ tablespoon of cocoa and of sugar for each cup liquid (half each milk and water).

Mix sugar, cocoa and salt, stir in boiling water, a little at a time and mix thoroughly. Boil about five minutes, then combine with scalded milk. Beat with egg beater before serving. Serve with additional sugar and whipped cream, if desired.

CHOCOLATE

2 ounces chocolate	1 pint boiling water	Sprinkle of salt
4 tablespoons sugar	1 pint scalded milk	

Use ⅛ square of chocolate and 1 tablespoon sugar for each cup liquid. Break chocolate into pieces and melt over hot water. Add sugar, salt and boiling water, and stir until smooth and glossy. Let cook about five minutes. Add part of hot milk, and when well mixed, pour into rest of milk. Let stand over fire about five minutes. Beat well with egg beater.

Less water and more milk may be used, if desired; ½ teaspoon ground cinnamon may be mixed either with cocoa or chocolate when sugar is added if additional flavor is liked. Or ½ teaspoon vanilla may be added.

FRUIT PUNCH

4 cups hot water	1 small can chopped pineapple	Juice of 4 oranges
2 cups sugar	Juice of 3 lemons	1 bottle soda pop

Prepare a syrup of the water and sugar and boil fifteen minutes, cool, add fruit and soda pop, add enough ice-water to make three and one-half quarts of punch. This fills eight and one-half water-glasses or twenty-five punch glasses.

GRAPE-JUICE LEMONADE

Juice of 3 lemons	2 cups grape juice	Enough ice-water to
½ cup sugar		make a quart

Combine ingredients in the order given. Chill for half an hour. Serve in each glass a thin slice of lemon from which the seeds have been removed. This quantity will serve six water-glasses or eighteen punch-glasses.

CEREALS

Cereals Are Valuable and Inexpensive Food.—Cereal mush or other cereal dishes with milk for breakfast furnishes a meal of excellent food value. It is a good plan to have several different kinds of cereal preparations on hand so that there may be a change from day to day. Corn and oat preparations furnish particularly good winter foods. Corn meal, oatmeal, rice and hominy grits are cheaper than the ready to eat breakfast foods. Cereals are rich in starches and should be thoroughly cooked.

Cereal With Fruit.—For variety, cereal may be cooked with well washed dates, raisins or dried appricots or peaches. Slices or sections of fresh apples, peaches and pears may be added during the last 30 minutes of cooking.

Stewed cereal may be served with any fruit previously stewed, or fresh fruits, or the cereal may be cooked in strained fruit juice or milk instead of water.

Cereal as a Vegetable.—Left over cereal may be sliced when cold and fried for luncheon or supper. Cereal cooked in soup stock or with meat and seasoned with salt and pepper and butter may be used as a potato substitute.

Cereal as a Dessert.—It may also be molded in cups or individual molds and served with fruit and whipped cream or a pudding sauce for a simple dessert.

GENERAL DIRECTIONS FOR COOKING CEREALS

Use a double boiler or two sauce pans, one a trifle larger than the other. Fill the larger sauce pan or lower part of double boiler ⅔ full of water and put the water needed for the cereal in the other vessel. When the water boils add the salt and cereal slowly so that the water does not stop boiling and let boil for ten minutes. Place the pot with cereal into the double boiler and cover and let steam. If the cereal seems to be too thick, add boiling water. The oatmeal, hominy and other coarse grain cereals are improved by soaking over night in water. They should be cooked in the water in which they have been soaked.

TIME TABLE AND DIRECTIONS FOR COOKING CEREALS

	Water	Cereal	Salt (teaspoon)	
Oatmeal	4 cups to	1 cup	1½	3 to 4 hours
Rolled Oats	2½ cups to	1 cup	1	½ to 1 hour
Rice (boiled)	8 cups to	1 cup	1	25 to 30 minutes
Rice (steamed)	3 cups to	1 cup	1	1 hour
Wheat (rolled)	1½ cups to	1 cup	1	1 hour
Wheat (granular)	4 cups to	1 cup	1	1 to 3 hours
Cornmeal	6 cups to	1 cup	1	3 to 6 hours
Cracked wheat	6 cups to	1 cup	1	3 to 6 hours
Hominy	4 cups to	1 cup	1	2 to 4 hours

(By using the fireless cooker, the cereal can be boiled 10 minutes over the fire in the evening, and then cooked over night in the fireless cooker.)

STEAMED RICE

1 cup of rice — 1 teaspoon salt — 1 quart boiling water or scalded milk

Cook as other cereal, stirring occasionally with fork to prevent sticking. Let it steam in a double boiler 45 minutes. Put in colander and pour cold water over the rice to wash off the sticky substance. Put colander over the lower part of the boiler again and allow the steam to thoroughly dry the rice.

CORNMEAL SCRAPPLE

2 pounds shin of beef — 1 medium onion — 2 quarts cold water
1 teaspoon salt — ⅛ teaspoon pepper — 1 cup cornmeal

Cook onion thinly sliced in beef marrow or suet. Add to water with meat and bone and cook until meat is tender. Let cool, skim off fat, and remove bone. To liquid remaining, add enough water to make one quart. Add cornmeal and salt and cook one hour. Turn into a mold, cool, cut in slices and fry in pork fat until brown. Serve with or without gravy.

BROWNED HOMINY

Fry cooked hominy to a golden brown in just enough fat to prevent sticking. Bacon fat or other drippings are preferable to lard because of their flavor. Serve in place of "fried" potatoes.

BATTERS AND DOUGHS

OBSERVE THESE RULES IN MAKING QUICK BREADS

Have all necessary utensils ready and ingredients together before starting work.

Sift all dry ingredients before measuring. After combining dry ingredients, sift again to distribute the baking-powder and seasoning evenly throughout the flour.

Measure shortening accurately and cut into the dry ingredients with spatulas or case knives. If a small amount of fat is used, as in muffins, it may be melted.

Beat the eggs in a bowl and add the liquid, then add gradually to the dry ingredients and beat the mixture thoroughly.

Add the liquid gradually to the mixture, being careful to add the last very slowly, so the dough will not be too sticky.

All ingredients should be kept as cold as possible, especially the liquid, and it is advisable to keep the shortening cold for biscuits and pie crust.

Handle batter and dough mixtures as little as possible. Rolling and too much mixing develops gluten and tends to toughen the finished product.

Place Quick Breads in a hot oven. They are sufficiently baked when golden brown in color, shrink slightly from the sides of the pan and when no batter clings to a toothpick that has been inserted in the center of the product.

PLAIN MUFFINS

2 cups flour	3½ teaspoons baking-powder	1 egg
4 tablespoons sugar		1 cup milk
2 tablespoons fat	½ teaspoon salt	

Sift the dry ingredients several times. Beat the egg until light; add it to the mixture and lastly stir in the melted fat. Mix the ingredients thoroughly; grease muffin tins; fill two-thirds full. Bake in a hot oven, reducing heat gradually toward the end of the baking. Bake about 25 minutes. Half a cup less of milk may be used and 1 cup of berries added to the mixture.

BRAN MUFFINS

1 cup flour	2 cups bran	2 tablespoons melted fat
¾ teaspoon salt	3 tablespoons sugar	About 1½ cups sweet milk
3½ teaspoons baking-powder	1 egg	

Sift together the flour, salt and baking-powder, blend with this the bran, and add to these dry ingredients the mixture of milk, beaten egg, sugar and fat. Have a thick, but very moist batter as described in preceding recipe for whole wheat muffins. Bake in greased muffin pans in a moderate oven about ½ an hour.

CORNMEAL MUFFINS

½ cup cornmeal	1 tablespoon sugar	½ teaspoon salt
1 cup flour	1 tablespoon melted fat	¾ cup milk
3 teaspoons baking-powder		1 egg

Mix and sift dry ingredients; add milk gradually, egg well beaten, and melted fat; bake in hot oven in greased muffin pans about 25 minutes.

CORN CAKE

¾ cup cornmeal
1 cup flour
¼ cup sugar
4 teaspoons baking-powder
½ teaspoon salt
1 egg, well beaten
1 cup milk
2 tablespoons melted fat

Mix and sift dry ingredients; add egg, well beaten, milk and the melted fat. Beat. Bake in a shallow, greased pan in a hot oven 20 minutes or more. One cup sour milk may be used in place of sweet milk, using ½ teaspoon soda and only 2 teaspoons baking-powder.

BAKING POWDER BISCUITS

2 cups flour
4 teaspoons baking-powder
½ teaspoon salt
2 tablespoons fat
About ¾ cup milk

Mix and sift dry ingredients. Rub in fat with tips of fingers, or chop in with a knife. Add milk gradually to make a soft dough. Use a knife in mixing. Toss on a well-floured board. Pat and roll out to 1 inch thickness. Cut with biscuit cutter dipped in flour. Place close together on an oiled pan and bake in a hot oven 10 to 15 minutes.

SOUR MILK OR SODA BISCUITS

2 cups flour
½ teaspoon soda
2 teaspoons baking-powder
2 teaspoons fat
½ teaspoon salt
¾ cup thick sour cream or sour milk enough to make a soft dough

Follow directions for baking-powder biscuits.

SWEET MILK DOUGHNUTS

2 tablespoons fat
1 cup sugar
1 egg
1 cup milk
4 teaspoons baking-powder
1 teaspoon salt
½ teaspoon cinnamon or nutmeg
Flour to make a soft dough (3 to 4 cups)

Cream the fat, add the sugar, add the milk and well-beaten egg. Add 3 cups flour mixed and sifted with dry ingredients, then enough more flour to make dough just stiff enough to roll. With knife, toss about ⅓ of dough on lightly-floured board, knead slightly to make smooth. Roll to thickness of about ¼ inch. Use floured spatula freely to prevent dough from sticking to board. Cut with floured doughnut cutter. Fry in deep fat about 2 minutes. They should come quickly to the top. Brown on one side, turn and brown on the other. Turn but once. Drain over fat and then on absorbent paper. When partly cool, or just before serving, sprinkle with powdered sugar, if desired.

POP-OVERS

1 cup flour
¼ teaspoon salt
⅞ cup milk
2 eggs
½ teaspoon melted shortening

Mix salt and flour, add ½ the milk; beat until smooth. Add remaining ½ of milk, well-beaten eggs and shortening. Add eggs beaten 2 minutes with egg-beater. Turn into hot greased gem pans, and bake about 35 minutes in a hot oven.

Creamed meat or vegetables may be served in pop-over cases; or prune whip, blanc mange or chocolate cream filling may be served in the pop-over cases.

GRAHAM BAKING-POWDER NUT BREAD

3 cups graham flour	1 teaspoon salt	2¾ cups milk
1 cup white flour	4 teaspoons baking-powder	1 egg
¼ cup sugar		1 cup nut meats

Mix and sift dry ingredients; add milk, well-beaten egg and nut meats. Mix thoroughly, put into greased bread pan, let stand 25 minutes in a warm place. Bake about 50 minutes or until done.

RAISIN BREAD

3½ cups flour	1 teaspoon salt	1½ cups milk
4½ teaspoons baking-powder	1 egg	1 cup chopped raisins
	1 tablespoon fat	½ cup sugar (or less)

Sift the dry ingredients, reserving a little flour. Add milk, egg and melted fat, beating mixture thoroughly. Sift flour over chopped raisins and stir into mixture. Place in greased bread pan and let stand for 20 minutes. Bake in moderate oven 45 minutes to 1 hour.

Chopped dates, or figs may be substituted for raisins.

BOSTON BROWN BREAD

1 cup cornmeal	1 teaspoon salt	¾ cup molasses
1 cup rye flour or	¾ tablespoon soda	½ cup raisins, if desired
1 cup graham flour	2 cups sour milk	

Sift together dry ingredients. Mix well with sour milk and molasses. If mixture is too stiff, thin with a little water. If raisins are used, either add to dry mixture before liquid, or reserve out little flour, sift well over raisins and stir in last. Grease baking-powder cans or molds, and cover, fill half full with batter. Steam 3 hours or more, depending on size of molds used.

Keep the water boiling all the time during the steaming. Add more boiling water if necessary.

Cover the kettle during the steaming, and be careful not to jar it while cooking.

GRIDDLE CAKE SUGGESTIONS

Use a frying pan or griddle. Grease the griddle if necessary (soapstone or aluminum must never be greased). Let fat begin to smoke before cooking the cakes. If large bubbles form at once on top of the cakes, the griddle is too hot.

If the top of the cake stiffens before the under side is cooked, the griddle is not hot enough. Never turn a cake twice. Serve griddle cakes as soon as cooked.

SWEET MILK GRIDDLE CAKES

4 cups flour	1 tablespoon sugar	1½ cups to 2 cups milk
¾ teaspoon salt	2 eggs	2 tablespoons melted fat
3 teaspoons baking-powder		

Combine all dry materials and sift. Beat eggs, milk and melted fat together. Add sifted dry materials and beat thoroughly. Place batter in a pitcher. Pour on a hot, greased griddle.

SOUR MILK GRIDDLE CAKES

4 cups flour	1 egg	1¼ teaspoons soda
¾ teaspoon salt	2 cups sour milk	1 tablespoon fat

Follow directions given under sweet milk griddle cakes.

CORN CAKES

1½ cups flour	1½ teaspoons salt	1½ cups boiling water
1 cup cornmeal	2 tablespoons melted fat	¼ cup milk
4 teaspoons baking-powder	¼ cup sugar	1 egg

Add meal to boiling water and boil 5 minutes; turn into bowl, add milk and remaining dry ingredients mixed and sifted, then the egg well beaten, and fat. Cook same as other griddle cakes.

WAFFLES

1½ cups flour	¼ teaspoon salt	2 egg yolks
3 teaspoons baking-powder	2 tablespoons sugar	2 tablespoons melted fat
	1 cup milk	2 egg whites

Measure, mix and sift the first four ingredients; add the milk gradually, then egg yolks and melted fat, and mix thoroughly. Lastly, fold in the stiffly-beaten egg whites. Cook in a well-greased waffle iron.

TOAST

BUTTERED TOAST

Cut bread a day old into ¼-inch slices, put slices in a wire toaster or on a grate and place it some distance from the fire that it may dry gradually, and then brown as desired, and butter. Toast, if piled compactly and allowed to stand, soon becomes moist. It should be served as soon after toasting as possible.

CREAM TOAST

Dip slices of toast into the cream sauce (see page 28). Pour remaining sauce on the pieces of toast and serve hot.

FRENCH TOAST

1 egg slightly beaten	5 slices of bread	2 tablespoons sugar
¼ teaspoon salt	1 cup sweet milk	Fat to grease the griddle

Add the salt, sugar and milk to the slightly-beaten egg, dip the pieces of bread into the egg mixture. Cook the soaked slices of bread on a well-oiled griddle; brown on one side, turn and brown on the other. Serve with maple syrup or jelly. Served with stewed fruit, makes a good dessert.

CINNAMON TOAST

Slightly stale bread	1 teaspoon ground cinnamon	1 cup granulated sugar
Butter		

Mix together the cinnamon and sugar and transfer to a shaker. Cut the bread ¼-inch thick, trim off crusts, and toast quickly so that it will be soft in the middle. Butter generously, shake the cinnamon-mixture over, put together in pairs and cut in triangles. Place in a hot oven for a minute or two and serve on a folded napkin on a hot plate.

BREAD AND BREAD MIXTURES

GENERAL DIRECTIONS FOR BREAD MAKING

First.—All utensils used in bread making should be scrupulously clean and scalded before using.

Second.—Scald the liquid, add salt, sugar and fat, then cool to lukewarm temperature.

Third.—Mix the yeast with ¼ cup lukewarm liquid, using yeast according to the time desired for the process. If dry yeast is used, mix it with a little lukewarm liquid and flour several hours before adding to the sponge.

Fourth.—Add the yeast mixture to the lukewarm liquid mixture.

Fifth.—Sift the flour, allowing 3 to 4 cups for each loaf. Add ½ of the flour to the liquid mixture and beat thoroughly. Add more flour to make a dough, using a knife, until when touched with the finger, the dough does not stick to the finger. A bread mixer is a time and labor saver. Turn dough onto a slightly floured board; knead by pushing the dough into the palms of the hands and drawing it forward with the fingers. Use as little flour as possible on board and hands while kneading. Continue until the dough is smooth and elastic to the touch. It takes from 15 to 20 minutes to knead with the hands and about 3 minutes in the bread mixer. Thorough kneading makes fine-grained bread.

Sixth.—Put dough in a bowl, brush over with milk, cover closely, put in a warm (not hot) place and let rise to double its bulk. This may be overnight or in the daytime, depending on the quantity of yeast used. During the rising, ordinary room temperature, from 68 to 75 degrees F., should be kept. The length of time required for rising depends upon the room temperature; the process may be hastened by increasing the temperature from 75 to 88 degrees F.

Seventh.—Knead again, shaping into loaves; divide dough into as many portions as there are cups of liquid in the mixture. Place in pans, brush over with skimmed milk or melted fat.

Eighth.—Cover and let rise in a warm place to double their bulk.

Ninth.—The baking is as important as the mixing of bread. The temperature of the oven depends somewhat upon the size of the loaves.

If your stove does not contain an oven thermometer, test the oven by spreading one teaspoonful of flour one-quarter of an inch thick on the lid of a jelly glass, and allow it to remain for 5 minutes in the oven. If the flour becomes golden brown, the temperature of the oven is between 400 and 425 degrees F.

Ten minutes after the baking begins, the heat should be decreased gradually. The time for baking bread is usually divided into quarters. The first quarter, the bread rises; the second quarter, it begins to brown; the third quarter, it finishes browning; and the fourth quarter, the baking is completed and the bread shrinks from the pan. Bake loaves from 50 to 60 minutes.

Tenth.—Cool loaves on a rack or place them so the air can circulate freely around the loaf.

WHITE BREAD

1 cup scalded milk	1½ teaspoons salt	1 yeast cake mixed with
1 cup boiling water	1 tablespoon sugar	½ cup lukewarm water
2 tablespoons fat		6 cups flour

Follow general directions.

To make potato bread, add 2 cups mashed potatoes to the liquids. Use only 1 cup liquid and less flour is needed

ENTIRE WHEAT OR BRAN BREAD

1 cup boiling water	1 teaspoon salt	2⅔ cups flour
1 cup scalded milk	4⅔ cups coarse entire	¼ yeast cake mixed with
⅓ cup molasses	wheat flour	¼ cup lukewarm water

Follow general directions.

RYE BREAD

May be made as directed for entire wheat bread, using rye flour in place of the whole wheat flour.

ROLLS

1 cup boiling water	1 teaspoon salt	1 yeast cake mixed with
1 cup scalded milk	3 tablespoons fat	¼ cup lukewarm
4 tablespoons sugar	Flour (6 to 8 cups)	water

Follow directions for making bread. Mashed potato may be used, and less liquid and flour is required.

PARKER HOUSE ROLLS

Shape the roll dough into biscuits, let rise again, then roll ¼-inch in thickness, and with the handle of a case knife dipped in flour, crease through the middle of each biscuit, or roll with rolling pin to oblong shape. Brush ½ of each with melted fat, fold and press together. Cover, let rise and bake in a hot oven 12 to 15 minutes.

SOUPS

Cream soup, puree, bisque or chowder are heavy soups and contain sufficient nourishment to be the chief articles of food at a meal. Cream soups are made with thickened milk, combined with meat stock, fish stock or vegetable stock and pulp.

Clear soups, such as bouillon and consomme are used as appetizers at the beginning of a heavy meal.

To clarify soup use 1 egg-white to each quart of cold stock. Beat egg slightly, and add to stock. Heat gradually till near the boiling point, stirring all the time. Cook gently for 15 minutes. Remove to back of range and add ¼ cup cold water. Let stand a few minutes, then strain through cheese-cloth placed over strainer. Heat and add any further seasoning desired.

SOUP STOCK

To prepare soup-stock follow these directions:

1 pound bone
1 pound meat
2 quarts cold water
½ cup minced onion
½ cup carrot
½ cup turnip
1 teaspoon salt
6 peppercorns
1 teaspoon sweet herbs
1 small bay-leaf
1 sprig parsley
1 piece celery root
4 cloves

Cheap cuts of meat, shin, neck, or joints and small scraps of meat, such as the flank end of steak or left-overs and bones of roasts, may be used for soup-stock. Cut the meat into small pieces. For each pound of meat and bone use about 1 quart of water. Put the meat and bone into cold, salted water. Let soak for an hour. Then let simmer gently about 3 hours, allowing from ½ cup to a cup of mixed vegetables for each pound of meat used. Mixed herbs and spices may be tied in cheese-cloth and added, and left in simmering soup as long as desired. After vegetables and seasonings are added, cook 2 hours or more. The froth should be skimmed from stock as it rises, if clear soup is desired.

SCOTCH BROTH

3 pounds mutton from the neck
2 quarts cold water
2 tablespoons salt
1 sliced carrot
2 sliced onions
4 stalks celery
4 tablespoons barley, soaked overnight

Remove the skin and fat from meat that has been wiped with a damp cloth. Cut the meat into small pieces, put into the kettle with the carrot, onion and water. Heat gradually to boiling point, and cook until meat is tender, strain and remove any fat. Reheat to boiling point, add barley and cook until the barley is soft. The meat should not be thrown away, but used in stews, croquettes or meat cakes. If combined with a little broth, the flavor is restored.

SPLIT PEA SOUP

1 cup dried split peas
3 quarts cold water
½ onion
4-inch cube salt fat pork
1 ham bone
2 tablespoons flour
⅛ teaspoon pepper
1½ teaspoons salt

Pick over peas and soak over night; drain; add cold water, pork, ham bone and onion. Simmer 3 or 4 hours, or until peas are soft. Rub through a sieve. Add the flour mixed with cold water to soup. Boil 5 minutes, stirring constantly. Add seasonings. Cubed potatoes or boiled parsnips may be added to the soup; tomato juice and green peas may be added to give variety.

CREAM POTATO SOUP

4 medium-sized potatoes
½ medium-sized onion
2 tablespoons fat
1 quart of milk
2 tablespoons flour
1 teaspoon salt
⅛ teaspoon pepper

Pare potatoes very thin and cook, in enough water to cover, until soft. Drain off water and save. Mash potatoes until free from lumps. Heat all but one cup of the milk in double boiler with potato water (about 1 cup).

Melt fat, add onion, cut in thin slices, with flour. When this bubbles all over, add the cup of milk which has been reserved and cook until slightly thickened, stirring constantly. Add mashed potato and stir into heated milk and potato water. Season and serve hot. If not free from lumps, the soup should be strained before serving. Two tablespoons of finely chopped parsley added just before serving adds greatly to the attractiveness of the soup.

CREAM OF CELERY SOUP

3 cups celery, cut in inch pieces
2 cups boiling water
½ teaspoon salt
2 tablespoons flour
2 tablespoons fat
1½ cups milk
⅛ teaspoon pepper

Wash and scrape celery and cut into inch pieces; add water and cook until very soft and tender; rub through sieve. Heat all but ½ cup of milk in double boiler. Melt fat, add flour and seasoning, and add the ½ cup of milk. Stir constantly until it thickens. Combine celery, thickened milk and heated milk. Season and serve.

CREAM OF TOMATO SOUP

½ can or 1 pint tomatoes
2 teaspoons sugar
1 teaspoon salt
Pepper
1 quart milk
1 slice onion
¼ cup flour
¼ cup butter

Stew tomato, strain, add soda and seasoning. Scald milk in double boiler with one slice onion. Add flour well blended with butter; cook thoroughly. Remove onion from milk. Combine mixtures, adding tomato to milk slowly, strain, serve at once in a hot dish.

CORN CHOWDER

Fat salt pork, 1 inch by 3 inches
1 sliced onion
4 potatoes cut in ¼-inch slices
1 can corn
1 quart milk
8 crackers
Salt and pepper

Cut pork into small pieces and try it out in a pan over a slow fire. Add the sliced onion and cook 5 minutes without burning. Strain fat into a saucepan. Add potatoes and boiling water to fat and cook until potatoes are soft. Then add the milk and corn. Heat to boiling point. Season with salt and pepper. Moisten crackers in cold milk. Serve crackers on top of chowder.

FISH CHOWDER

2 cups flaked cod, or fresh cod, or soaked salt cod
6 potatoes, cut into ¼-inch slices
1 pint boiling water
1 sliced onion
Salt pork fat, 1 inch by 3 inches
1 tablespoon salt
⅛ teaspoon pepper
1 quart milk
8 soda crackers

Try out fat, add sliced onion and cook to a light brown, without burning. Strain fat into saucepan, add potatoes and boiling water and cook 10 minutes. Add the fish and simmer 20 minutes. Add the milk and seasonings. Heat to boiling point and serve with crackers, split and previously dipped in cold milk.

FISH

Fish contains the same food value as meat at a much smaller cost, not only tastes good, but is easily digested.

As white-fleshed fish is considered more easily digested than the red-fleshed, it should be selected for invalids, convalescents or those suffering from weak digestion.

Fish contains albumen, and as albumen (which is like the white of egg) clots at a low temperature, it should be cooked at a temperature below boiling point of water.

Select a fish that has bright eyes and gills, shiny scales, firm flesh, and is free from a disagreeable odor.

PREPARATION OF FISH FOR COOKERY

Cover board or table with paper before laying fish down. Remove scales by scraping a dull knife from tail to head, snapping scales off. Rinse knife in water occasionally. Wet hands before touching fish, and odor will come off more easily.

Dip hands in salt so that fish will not slip, and hold by tail. If inner organs have not been removed in market, make a lengthwise incision on underneath side and draw or scrape them out carefully, so that membrane which lines cavity is not broken. Remove head if desired; if left on, cut out eyes. Remove fins with scissors. Wash inside and out in salted water. Sprinkle fish with salt if it is to be kept over night. Handle fish carefully when cooking, as flesh falls apart easily, and have all utensils well greased, as skin sticks readily when heated.

METHODS OF COOKING FISH

Fish suitable for broiling are: Split mackerel, white fish, cod, shad, trout, etc.; sliced halibut and salmon, white smelts and small fish. To broil—brush with melted fat, sprinkle with flour, salt and pepper, and cook over a flame or clear fire.

Fish suitable for baking whole are: Whitefish, cod, haddock, small salmon, shad. Follow directions for baked fish.

Fish suitable for boiling are: Salmon, halibut, cod, haddock, trout, etc. Cook in piece of cheese-cloth. Add 1 tablespoon vinegar and 1 tablespoon salt to each quart of water.

Fish suitable for frying are the white-fleshed. Cook in deep fat or sauté in a little fat in a frying pan.

TIME TABLE FOR COOKING FISH

Baking—thick fish, per pound	10 to 15 minutes
Baking—thin fish, per pound	8 to 10 minutes
Boiling—thick fish, halibut, salmon, per pound	15 minutes
Boiling—thin fish, such as flounder, per pound	8 minutes
Frying—fillets or steak	4 to 7 minutes
Frying—smelts or trout	3 to 5 minutes

When the fish can be easily separated from the bone, the fish is sufficiently cooked.

FISH—BAKED, WITH STUFFING

Select a fish weighing from 2½ to 4 pounds. Bake with the following stuffing:

1 cup crumbs (bread or crackers, or half and half)	¼ cup melted fat	⅛ teaspoon pepper
	¼ teaspoon salt	Few drops onion juice, if liked
	⅛ teaspoon celery salt	¼ cup water

Mix ingredients in order given. If a dry filling is desired, the water may be omitted. Three tablespoons catsup, chopped parsley, capers, pickles, or oysters may be added. Clean and wipe the fish. Rub the inside with salt. Fill with stuffing and sew together. Cut diagonal gashes 1½ inches apart on both sides of the fish and place a strip of bacon or salt pork fat in each gash. Brush with melted fat, sprinkle with salt and pepper. Dredge with flour, tie in the shape of a letter "S" and bake on a baking sheet or strips of cotton cloth (so that it may be easily removed from the pan in a dripping pan). When the flour is browned, baste the fish once in 10 minutes. Cook until the flesh is firm and separates easily from the bone.

BROILED FINNAN HADDIE

Wash the fish thoroughly; let soak a half hour in cold water, skin side up; cover with water which is simmering, not boiling. Let stand 15 minutes, then drain carefully and wipe dry, brush over with fat and broil over slow fire about 15 minutes. Remove to hot platter, sprinkle with bits of butter, and with juice of half a lemon. Serve at once.

BROILED SALT MACKEREL

Let soak in cold water 12 hours, skin side up. Drain and wipe dry. Brush over with melted fat. Broil on a well-greased broiler skin side down, basting with butter once or twice. Remove carefully to serving dish and pour over ½ cup of hot white sauce (page 28). Sprinkle with finely-chopped parsley.

FRIED SMELTS

To clean smelts, spread open outer gills, and with the forefinger, take hold of the inner gills and pull gently; the parts unfit for food are all attached to these inner gills, and come away together, leaving the smelt in perfect shape. Rinse thoroughly and wipe dry. If smelts are small, dip in milk and roll in flour, or in egg and bread crumbs. Fry in deep fat.

CODFISH BALLS

1 cup salt codfish	1 egg	⅛ teaspoon pepper
2 cups potatoes	1 tablespoon butter	

Wash fish in cold water and pull into small pieces, keeping fish in water while doing so. Wash and pare the potatoes and cut into pieces. Cook the fish and potatoes together in boiling water until the potatoes are tender, then drain and shake over the fire until dry; mash, and beat

thoroughly with a wire potato masher. Add the butter, pepper and salt if needed. Cool slightly, then add beaten egg, and beat until light. Take up mixture in a spoon, moulding slightly with a knife, and dip into deep hot fat. Fry until brown, about 1 minute. Drain on absorbent paper.

Mixture for codfish balls may be served hot, without frying, or turned into a buttered baking dish and browned in the oven and served as a baked dish, or shaped into flat cakes and sautéd in frying pan. To make codfish puff, prepare in same manner, only use two well-beaten eggs. Cook like an omelet.

SCALLOPED FLAKED COD OR OTHER FISH

1 pound flaked cod — 1½ cups mashed potato — ¼ cup buttered crumbs
1½ cups white sauce

Arrange the fish and sauce in layers in a well-greased baking dish. Cover with mashed potatoes and bread crumbs. Bake until heated throughout and crumbs are browned on top. Any kind of cooked fish may be flaked and prepared in this way. Layers of boiled onion or green peas may be used in this recipe.

SALMON LOAF

1 cup flaked cooked salmon — 1 teaspoon salt — 1 teaspoon lemon juice
1 cup stale bread crumbs soaked in 1 cup scalded milk — 1 tablespoon butter — ½ teaspoon onion juice — 2 egg yolks, beaten — 2 egg whites stiffly beaten

Combine ingredients in order given, folding in the stiffly-beaten whites last. Drop mixture into a well-greased and crumbed pan and bake in a moderately hot oven or steam the mixture. Serve with white sauce (page 28), or the following:

SAUCE FOR FISH

2 tablespoons butter — 1½ cups milk, scalded — 2 tablespoons lemon juice
2 tablespoons flour — Liquid from fish — 1 egg yolk

Melt butter, add flour, then heated milk gradually. Add liquid from fish and lemon juice just before removing from fire. Just before serving, beat sauce into yolk of egg. Serve hot. 1 tablespoon catsup may be added if desired.

OYSTERS—FRIED

Select large oysters, remove pieces of shell, wash and wipe dry. Roll in well-seasoned, dry bread crumbs, which have been sifted. Dip in egg (beaten with 1 tablespoon water or oyster juice), and again in the crumbs. Sauté in frying pan, using one tablespoon fat to cup of oysters.

OYSTERS—SCALLOPED

1 quart oysters — ½ teaspoon salt — 6 tablespoons butter
2 cups crumbs — Cayenne — ½ cup liquid

Wash oysters with ¾ cup cold water in colander and remove pieces of shell. Strain the juice. Melt butter, add crumbs and seasoning. Line the bottom of a greased baking dish with ¼ the crumbs then add ½ the oysters. Add ¼ more crumbs, and remainder of oysters and liquid.

which may be liquid from oysters or milk. Cover with buttered crumbs. Bake in a moderate oven 30 to 40 minutes. A large shallow pan is always preferable to a deep baking pan.

OYSTER STEW

1 quart oysters
1 quart milk
¼ cup butter
½ tablespoon salt
⅛ tablespoon pepper

Clean the oysters by placing in colander and pouring over them ¾ cup cold water. Pick over carefully, removing any bits of shell that adhere. Reserve liquid, heat to boiling point, strain through double cheese-cloth over wire strainer. Add oysters, cook until edges begin to curl. Add oysters and liquor to hot, scalded milk; add butter and seasoning. Serve at once.

Paprika, celery salt, onion juice, parsley or mace may be used as additional seasoning, if desired.

For oyster soup, thicken the milk, using ½ tablespoon flour for each cup of milk. Prepare as for white sauce.

MEAT

Good beef is dark, purple in color when first cut, but turns to a bright red. It should be well streaked with a firm fat of yellowish color that crumbles easily. The flesh should be firm and, when pressed with the finger, no mark should remain.

Veal should be pink; it is usually less firm than beef. If used too young, it is watery and flabby.

Mutton should be dullish red, rather firm and streaked with fat juices, white or slightly yellow.

Lamb, which is in season between May and November, should be dark pink, but not as firm as mutton.

Pork should be pale in color. It is less firm than beef and has soft fat.

All meat should be removed from the paper wrappings as soon as it comes from the market. Paper absorbs meat juices, and if meat remains in the paper too long, it will taste of the paper. Before cooking, meat should be wiped with a clean, damp cloth, but it should never be put in water because water draws out the meat juices. Meat should always be kept in a cool place.

One of the fundamental, underlying principles in the cooking of meat is that heat hardens protein.

High temperature hardens and toughens meat; therefore, it should only be used to form a coating or to sear the meat on the outside. This also is the best means of retaining the juices, and if lower temperature is used to complete the cooking, the finished product will not be tough and indigestible.

Pounding and chopping helps to break the connective tissue. It is, however, likely to open the thread-like meat fibers and release the juices. If flour is pounded into the meat, it will hold and help retain the juices. Try to develop the natural flavor by long, slow cooking.

BEEF

PAN-BROILED STEAK

Trim fat from steak, also part of bone, if desired. Wipe with damp cloth. Heat frying pan till very hot, or until blue smoke arises. Rub surface of pan with little fat. Place steak in pan, searing it quickly, first one side, then on the other. Be careful in turning not to pierce with fork. After both sides are seared, reduce heat under the pan and cook steak more slowly, turning every 10 seconds. Stand on edge to brown fat. Keep pan free from fat. Steak is done rare, when well browned, and puffy. If one inch thick, this will take about 8 minutes. If desired well done, it will require 12 to 15 minutes or more.

HAMBURGER STEAK

Chop finely one pound lean raw beef; season highly with salt, pepper and a few drops of onion juice. Add ¼ cup milk gradually; knead dough until spongy and shape into cakes. Heat a frying pan, rub with the fat of meat and pan-broil the steaks. Turn cakes often during the cooking.

FLANK OR ROUND STEAK, STUFFED AND ROLLED

1 pound top round, or flank ½ inch thick
2 or 3 small slices suet
1 onion, sliced
¼ cup carrot, cubed
1 cup boiling water or stock

STUFFING

1 cup crumbs
2 tablespoons butter (melted)
2 tablespoons parsley
½ teaspoon onion juice
2 tablespoons chopped celery
½ teaspoon salt
⅛ teaspoon paprika

Trim edges of steak, spread stuffing over it, roll and tie it, and lay it on onion and carrot in pan with suet on top. Pour the water or stock into pan, cook, closely covered, for 20 minutes or more in a hot oven, then uncover and cook 30 minutes longer. Serve with brown gravy made from drippings in pan.

SWISS STEAK

Select a slice of round steak, cut about two inches thick. A steak from the top of the round is preferable. For a small family, half of the slice will suffice for two meals. A full slice from heavy beef will weigh four or five pounds. Pound into the steak, on both sides, as much flour as it will take up (nearly one cup).

Brown the meat on both sides in bacon or salt-pork fat, cover with boiling water and let simmer about two hours. Peel an onion for each person to be served; let cook five minutes in boiling water, drain, rinse in cold water and set to cook around the meat. If preferred, the onions may be sliced into the dish before the steak is put into it. If the meat is browned in an iron frying pan, the sauce around the meat will be thick and brown.

POT ROAST OF BEEF—GRAVY

Nearly any of the tough meats may be used. The rump or lower part of the round is preferable. Wipe meat, sear in hot frying pan, or in the kettle for roasting. Lard outer surface if meat is lean, or few slices of salt pork may be cooked with meat. Place in the kettle, add ½ cup boiling water to 2 pounds meat, and cover tightly. Cook slowly until meat is very tender and well browned, adding only enough water to prevent burning. Season when nearly done. Serve with brown gravy made with liquid left in the pan. Instead of water, strained tomatoes may be used with pot roast. For seasoning, in addition to salt and pepper, a bit of bay leaf, parsley, a few cloves, or slices of carrot may be cooked with the roast.

GRAVY

To each cup of liquid add, gradually, 2 tablespoons flour mixed till smooth, with an equal quantity of cold water. Cook as white sauce. Strain.

VEAL

ROAST VEAL

The leg, cushion (thickest part of leg), and loin are suitable pieces for roasting. When leg is to be used, it should be boned. Wipe meat, sprinkle with salt and pepper, stuff and sew in shape. Place on rack in dripping pan, dredge meat and bottom of pan with flour, and place around meat strips of salt pork. Bake three or four hours in moderate oven, basting every fifteen minutes with one-third cup butter melted in one-half cup boiling water, until used; then baste with fat in pan. Serve with brown gravy.

VEAL LOAF

2 pounds veal
¼ pound fat salt pork
2 teaspoons salt
½ teaspoon pepper
1 tablespoon chopped parsley
1 tablespoon lemon juice, if desired
½ cup dry crumbs
2 tablespoons tomato catsup
¼ cup milk
1 egg
1 onion

Select lean veal, remove skin and membrane, chop fine with salt pork. Add crumbs, seasoning. Brown minced onion in little fat, before

adding. Beat egg slightly, add with milk, mix up well. Pack in a bread pan, smooth evenly on top and bake in slow oven two hours, basting frequently. Or, meat may be shaped into loaf in roaster and baked in oven. May be served hot, with brown gravy or tomato sauce, or may be used cold.

VEAL CUTLETS

2½ pounds veal (from round)
Salt
Pepper
4 tablespoons drippings or butter
Fine bread crumbs
1 egg
1 tablespoon water

Wipe meat and cut into pieces for individual serving, removing bone, skin, and tough membranes. Skewer small pieces of meat together with wooden tooth-picks. Beat egg and water, so that white is well broken, but not light. Roll in sifted, seasoned bread crumbs; dip in egg, then roll in crumbs again. Melt fat in frying pan. When hot, brown cutlets quickly on both sides. Pour sauce over cutlets, cover, then cook at low temperature for one hour or until tender, turning occasionally. Cutlets may be browned in deep fat, in which case, transfer to saucepan to finish cooking.

SAUCE FOR CUTLETS

2 tablespoons fat
¼ cup flour
½ teaspoon salt
1 teaspoon Worcestershire
½ teaspoon pepper
1 pint stock, water, or strained tomato juice
2 tablespoons chopped parsley, or lemon juice, or horseradish

VEAL AND HAM PIE

1½ pounds veal
2 hard cooked eggs
½ pound ham
1 tablespoon flour
1 teaspoon grated lemon rind
1 teaspoon powdered herbs, salt, pepper, red pepper and mace to taste
1 tablespoon chopped parsley
Pastry or biscuit dough
Stock

Cut veal and ham into thin slices. Trimmings from roast may be used. Mix on plate the flour, salt, pepper, red pepper, mace, powdered herbs, and lemon rind, roll each piece of veal in this seasoning, and lay in deep casserole, alternately, layers of veal, ham, and eggs cut in slices; pile this in center of the dish, add one cupful of water, and parsley, cover with dough and bake in hot oven for one and a quarter hours.

When baked, add a little well-seasoned stock. Serve hot or cold.

KIDNEY STEW

1 pound kidney
1 carrot
½ medium-sized onion
2 cups water
2 tablespoons flour
2 tablespoons drippings

Scrape and slice carrot, peel and slice onion, and cook together in two cups of water until tender. Soak kidneys for one hour in lukewarm water. Drain, clean and dry. Dredge with flour, slice, and brown in frying pan with drippings. Remove kidneys from frying pan, add flour to the fat and brown. Add to this the two cups of water in which the carrots and onion were cooked. Boil until thickened. Add kidneys, onion and carrots. Season with salt and pepper, cook for three minutes and serve.

LIVER

BRAISED LIVER

Take a calf's liver and skewer into shape. Place a small piece of fat pork or bacon on the top of it and around it. In the covered baker, place one-fourth cup each of diced carrot, onion and celery. Add one-fourth teaspoon of peppercorns, two cloves, a bit of bay leaf and two cups of water or of brown stock. Cover closely and bake slowly for two hours, removing the cover during the last twenty minutes. Make a brown sauce, using the liquid, and pour it around the liver on serving.

LAMB AND MUTTON

LAMB OR MUTTON STEW

2 pounds lamb or mutton	½ cup carrot	6 potatoes
1 onion	½ cup celery	1 teaspoon salt
	1 quart stock or water	¼ teaspoon pepper

Cut meat into 2-inch cubes. Reserve the tenderest pieces of meat. Place the tougher portions and bone into cold water or stock. Put over slow fire and heat gradually to boiling point. Dredge reserved meat with flour, and sauté in marrow drippings, or pork fat, and add to stew. Let simmer about two hours. In same frying pan brown onion, cut in slices, celery, and carrot diced. Cook until meat and vegetables are nearly done, then remove bones, skim off fat and add potatoes which have been par-boiled 10 minutes, and drained. Season. Add boiling water if needed. Ten minutes before potatoes are done, add dumplings. Thicken gravy after removing meat, vegetables and dumplings.

DUMPLINGS

2 cups flour	4 teaspoons baking-powder	½ teaspoon salt
		1 cup milk or water

Sift dry ingredients together in mixing bowl. Mix to drop batter with liquid. Drop from spoon into boiling stew, being careful that there is plenty of water and no possibility of boiling dry. Cover closely and cook undisturbed, and rapidly, for from ten to twenty minutes, depending on size of dumplings.

BRAISED LEG OF MUTTON

Bone a leg of mutton. Wipe, stuff, sew and place in deep pan. Cook five minutes in one-fourth cup butter, a slice each of onion, carrot, and turnip cut in dice, one-half bay leaf and a sprig each of thyme and parsley; then add three cups hot water, one and one-half teaspoon salt, and twelve peppercorns. Pour over mutton, cover closely and cook in oven slowly three hours, uncovering for the last half hour. Remove from pan to hot platter. Brown three tablespoons butter, add four tablespoons flour, and stir until browned; then pour on slowly the strained liquor; there should be one and three-fourths cups.

PORK

ROAST PORK

Wipe pork, sprinkle with salt and pepper, place on rack in dripping pan or roaster, and dredge meat and bottom of pan with flour. Place in moderate oven and roast three or four hours, basting every fifteen minutes with fat in pan. For roast pork, the usual rule is twenty-five minutes to the pound. Make gravy, using same proportions as White Sauce I. (see page 28).

PORK CHOPS WITH DRESSING

6 pork chops
½ onion, finely chopped
1½ cups bread crumbs
2 tablespoons pork fat, chopped
⅛ teaspoon pepper
¾ teaspoon salt
¼ cup hot water
1 beaten egg

Mix bread crumbs, pork fat, seasonings, water and egg. Spread on pork chops. Put chops in a pan close together; add a little water to cover bottom of pan and bake in a moderately hot oven 1 hour, basting occasionally.

BAKED HAM

12-pound ham
1 cup brown sugar
4 dozen cloves

Plunge the ham into boiling water for ten minutes. Reduce the temperature and cook below boiling for two hours. Remove ham from water and peel off the skin to near the shank end. Bake one hour, basting frequently with equal parts vinegar and water. Take from oven and rub the fat surface with brown sugar. Insert cloves all over the ham at intervals of two inches. Bake until tender without more basting. It will take about six hours to properly cook a twelve-pound ham.

BAKED SLICE OF HAM

2-pound slice of ham (1 inch thick)
10 whole cloves
1½ cup light brown sugar
½ dozen tart apples
½ cup water
parsley

Rub ½ cup sugar into the ham. Sprinkle with cloves. Place in baking pan and surround with the apples peeled, cored and sliced in half cross-wise. Sprinkle the remaining sugar over the apples, add the water to the pan and bake until tender (about 45 minutes). Serve on hot platter garnished with cress or parsley.

PLAIN FRIED HAM

Cut a thin slice from the center of a ham and gash the fat on the edge in several places; put in hot frying pan, brown quickly on one side, then turn and brown lightly on the other side. Then cook very slowly until tender.

POULTRY

ROAST FOWL

After fowl has been dressed and cleaned, fill with stuffing, truss securely in compact shape, and lay on its back in roasting pan. Dredge with flour, salt and pepper, dot with bits of butter, if desired, and place in hot oven. As soon as flour is browned, begin to baste with cup of hot water every ten minutes. Cook until breast meat is tender, about 2½ hours for 4 pound fowl. Longer for larger fowl.

STUFFING FOR ROAST FOWL

4 cups bread crumbs
2 teaspoons salt
¼ teaspoon pepper
1 egg, slightly beaten
½ teaspoon poultry seasoning or onion
2 tablespoons butter melted
2-3 cups boiling water

Mix in order given, combine thoroughly and use to stuff fowls. Butter may be omitted if fowl is fat, or beef drippings may be substituted. If a dry, crumbly dressing is desired, omit the boiling water.

CHICKEN FRICASSEE

3 pounds chicken
1 onion
2 cloves
½ bay leaf
1 teaspoon salt
¼ cup chopped salt pork fat or other fat
⅓ cup flour

Singe, draw and disjoint a 3-pound chicken. Wash and rinse carefully. Put into a saucepan with 1 quart of water, 1 sliced onion with 2 cloves pressed into it, bay leaf and salt. Simmer slowly until tender. Remove chicken, dredge the pieces generously with the flour, salt and pepper, and brown in the salt pork fat or other fat in a frying pan. When the pieces of chicken are nicely browned on both sides, add the water or stock in which the chicken has been cooked. If the gravy is not thick enough, add flour thickening to it. Season to taste. Arrange the browned chicken on a platter. Pour the gravy over it. Surround with a border of boiled rice.

TO FRY CHICKEN

Select young chicken. Cut up. Wash, drain, but do not dry. Dredge well with flour and seasoning. Use drippings for fat—salt pork, bacon, beef or chicken fat will do, or use part butter and part other fat. Cook chicken slowly in fat in frying pan until tender, and well browned. Serve with cream or milk gravy.

CHICKEN A LA KING

1½ cups white sauce
2 cups chopped chicken
1 cup cooked mushrooms
1 green pepper

CHICKEN PIE

1 fowl
½ onion
1 tablespoon parsley
Bit of bay leaf
Salt
⅛ teaspoon pepper
¼ cup flour
Pie crust or biscuit dough

Dress, clean, and cut up fowl. Put in a stewpan with onion, parsley, and bay leaf, salt and pepper. Cover with boiling water, and cook slowly until tender. Thicken stock with flour diluted with enough cold water to pour easily. Cover the chicken mixture with crust in which several incisions have been made. 2 egg yolks
2 tablespoons melted fat
¼ teaspoon sage

Mix ingredients in order given.

LEFT-OVER MEATS

GENERAL DIRECTIONS

Almost any left-over meat may be combined with other foods, well seasoned, and be made up into very palatable dishes. Beef, veal, mutton, lamb, chicken, and ham are all desirable and may be combined. Fish may be substituted for meat in many recipes.

Trim off carefully all non-edible parts.

Cut or chop meat in fine pieces of uniform size. Do not mash.

CASSEROLE OF RICE AND MEAT

2 cups chopped, cooked meat
1 teaspoon salt
¼ teaspoon pepper
¼ teaspoon onion juice
1 tablespoon chopped parsley
1 egg
½ cup fine bread crumbs
4 cups cooked rice

Season the meat, mixed with crumbs and beaten egg, and add meat stock to make mixture pack easily. Line a greased mold, or baking

pan, with 2 or 3 cups rice. Pack rice well and fill with meat, cover with the remainder of the rice, cover tightly and steam or bake about 45 minutes. Remove from mold. Serve with tomato sauce.

SHEPHERD'S PIE OR SCALLOPED MEAT

2 cups chopped, cooked meat
2 cups mashed potato
2 cups left-over gravy
1 teaspoon salt
$\frac{1}{8}$ teaspoon pepper
$\frac{1}{8}$ teaspoon paprika
1 teaspoon onion juice
1 or 2 tablespoons butter

It is unnecessary to follow above proportions. Use available amounts of meat and potato, and gravy, and season to taste. Line bottom of buttered baking dish with well beaten mashed potato (either hot or left over). Add thick layer of meat and gravy, then layer of potato, until dish is full. Make the top crust of potato. Dot with bits of butter. Or, meat and gravy may be placed in lower part of baking dish with single thick layer of mashed potato for the crust. Stiffly beaten egg white may be folded into mashed potatoes before adding to meat, if desired. Bake in hot oven till potatoes are brown, or if cold potatoes have been used, till thoroughly heated and browned. Crumbs, macaroni or rice may be substituted for potatoes.

MINCED MEAT ON TOAST

Use any meat, heating in gravy, white sauce, or tomato sauce. Add butter, season well, and serve on hot toast.

HASH

1 to 2 cups chopped meat
2 cups cubed potato
1 teaspoon salt
$\frac{1}{2}$ teaspoon pepper
1 teaspoon mixed onion or celery
3 to 4 tablespoons butter
Enough milk, water or stock to moisten

Any available left-over meat may be used, taking about equal parts of meat and potato. Chop meat first, then add potato and chop together. Season. Melt fat (1 tablespoon to each cup of hash) in frying pan, spread hash in evenly and cook slowly for 20 minutes. Shake the pan occasionally to prevent sticking. Roll or fold an omelet without breaking browned crust. The hash may be put in a buttered pan and baked in the oven.

TURKISH PILAF

1 cup washed rice
1 pound raw lean beef or lamb
1 teaspoon salt
2 cups boiling water
1 small onion or 2 cloves
2 cups tomatoes
2 tablespoons fat
garlic

Fry onion out in small pieces or garlic in the fat until slightly brown; add rice, seasonings, water, tomatoes, meat, and cook in a covered dish until the rice is soft. The meat may be omitted, the rice cooked in the tomatoes and water, and the whole covered with grated cheese and baked until cheese is melted.

MEAT CROQUETTES

2 cups chopped, cooked meat	1 to 2 cups thick white sauce	½ teaspoon salt ⅛ teaspoon pepper

WHITE SAUCE FOR CROQUETTES

2 tablespoons butter 4 tablespoons flour	1 cup milk ½ teaspoon salt	Few grains pepper

PREPARATION OF CROQUETTES

In general, use equal amounts of white sauce and meat. Less will be needed if meat is freshly cooked than if canned meat is used. Meat should be chopped fine, seasoned rather highly, then moistened with sauce as soft as can be handled. Let chill thoroughly on flat dish, then divide evenly into separate portions, allowing 2 tablespoons for each croquette. Shape into balls, cylinders, cones or any desired shape. Roll and sift dry crumbs, beat egg with 1 tablespoon water. Roll croquettes in crumbs, dip in egg, again roll in crumbs, and fry in deep fat, till light brown in color. Drain on oiled paper. They may be served with sauce.

Any meat or combination of meats may be used. Fish, eggs and macaroni may be used in same way. Seasoning may be onion, parsley, celery salt. Lemon juice combines well with fish or chicken.

MEAT SAUCES AND RELISHES

HOLLANDAISE SAUCE

½ cup butter 2 egg yolks ½ teaspoon salt	2 teaspoons cornstarch Sprinkle of cayenne	½ cup scalded milk Juice 1 lemon

Cream the butter, add the cornstarch dissolved in 1 tablespoon cold water, beat well; add the egg yolks one at a time, beating thoroughly again, add seasonings and water, and cook in double boiler, beating constantly until thick. Add lemon juice last.

MINT SAUCE

8 stalks mint, or 2 tablespoons dry mint	2 tablespoons sugar ½ cup vinegar	1 tablespoon lemon juice

Wash mint and pick leaves from stems. Chop fine. Add sugar and rub well together. Add gradually vinegar and lemon juice. Let stand one hour.

PARSLEY SAUCE

¼ cup butter ¼ cup flour 2 cups stock	1 tablespoon chopped parsley ½ teaspoon salt	Dash cayenne and mustard

Melt butter, add flour, blend, add stock, stirring constantly, then add seasonings.

The general rule for use of white sauce for creamed and scalloped vegetables is to use half as much white sauce as vegetables. For example, for one pint of potatoes, use one cup of white sauce.

CREAM OR WHITE SAUCE

I

1 cup milk
2 tablespoons flour
2 tablespoons butter
¼ teaspoon salt

II

1 cup milk
2 tablespoons flour
2 tablespoons butter
¼ teaspoon salt

III

1 cup milk
½ tablespoon flour
1 tablespoon butter
¼ teaspoon salt

IV

2 tablespoons butter
4 tablespoons flour
1 cup milk
1 teaspoon salt

Mix the flour and the water until smooth; add a little more cold water to make it thin enough to pour; add the flour mixture gradually to the scalded milk and salt and butter, stirring constantly until thickened. It requires 20 minutes if cooked in double boiler.

The quickest method is to melt butter in saucepan, then add flour, stirring till mixture becomes foamy, but not brown. Add milk, continue stirring to insure smoothness, cook till thickened. Season.

White sauce I is used in preparation of creamed vegetables. II is used in scalloped dishes. III is that usually used for creamed soups. IV is used for meat croquettes and cutlets.

The general rule for use of white sauce for creamed scalloped vegetables is to use half as much white sauce as vegetables. For example, for one pint of potatoes, use one cup of white sauce.

For croquettes, use equal amounts of white sauce and meat. Chill mixture before using.

CHILI SAUCE

1 peck ripe tomatoes
12 onions (size of egg)
6 green peppers (small)
1 pint brown sugar
1 pint vinegar
3 tablespoons salt
½ tablespoon allspice
1 tablespoon cinnamon
½ tablespoon cloves
½ teaspoon paprika

Mix the first six ingredients together and cook until nearly done before adding the spices.

MUSTARD PICKLE

1 quart small cucumbers
1 quart large cucumbers, sliced or diced
2 quarts small pearl onions
1 quart green tomatoes, sliced
2 quarts small green tomatoes
2 quarts butter beans or celery cut in 2-inch pieces
3 small heads cauliflower, torn apart
6 green peppers, cut in strips

Prepare vegetables overnight and soak in a strong brine. In the morning rinse and scald in fresh water. Drain thoroughly in a colander and cover with the following mustard dressing: Mix together 1½ cups sugar, 4 tablespoons each flour and powdered mustard, ½ tablespoon turmeric, 1 teaspoon celery salt; add slowly 3 pints of hot vinegar; stir till smooth. Cook in double boiler till it thickens. Pour over hot vegetables; simmer for five minutes. Pack in hot, clean jars.

MEAT SUBSTITUTES

The need of tissue building foods in the diet is a well understood fact and their principal source is meat. Among the various foods which may be used in place of meat are: Eggs, poultry, fish, game, cheese, milk, legumes, some cereals, and nuts.

EGGS

Eggs are cheaper than meat.

SCRAMBLED EGGS

6 eggs
6 tablespoons milk
3 tablespoons butter
¼ teaspoon pepper
½ teaspoon salt

The general rule is to use 1 tablespoon milk and ½ tablespoon butter for each egg. Beat eggs slightly to mix whites and yolks, add salt, pepper and milk. Put butter into hot omelet pan. When melted, pour in the mixture. Cook slowly at a low temperature, until creamy consistency, lifting from bottom of pan with spatula, as it thickens. Do not stir, but leave in rather large masses. Serve on hot, buttered toast.

BAKED EGGS

Toast circular pieces of bread from which a little of the centers have been removed. Place pieces on a buttered dish. Break an egg and drop contents in the center of bread. Sprinkle with salt and pepper, dot with butter, pour on a little milk or cream and bake in a moderate oven until eggs are cooked.

BAKED EGGS WITH CHEESE

Have ready a smooth, hot pan (light weight, small pan is best) in which butter, has been melted. Shake the pan so that every part is coated with butter. Pour beaten eggs into pan. As eggs cook, shake pan lightly, and with fork or spatula, gently lift egg. Tip pan, so that some of uncooked portion can run to side. When puffed, creamy, and lightly browned on the bottom, take pan in left hand, tilting pan downward. With knife loosen edge of omelet from pan. Make slight cut in middle at each side at right angles to the handle of the pan, but not entirely through the omelet. Shape in balls size of original yolks, refill whites. Place in a baking dish, pour around white sauce. Bake in an oven with buttered crumbs.

CHEESE DISHES

One pound of cheese contains as much food value as 2 pounds of meat. Cheese may be added to white sauce and served with boiled rice or boiled vegetables or plain on toast. Cheese may be combined with left-over cereal mush, and baked as a souffle or shaped into cakes and baked in the oven or browned in a little fat in a pan.

CHEESE FONDU

1 cup stale bread crumbs
1 cup or ¼ lb. cheese (cut fine)
1 cup milk
2 eggs
1 tablespoon butter
½ teaspoon salt
⅛ teaspoon mustard
⅛ teaspoon paprika

Mix bread, milk and cheese in a double boiler. When cheese is melted, add eggs, beaten until well mixed, and seasonings. Cook until thick and perfectly smooth.

The same mixture may be prepared by placing bread and cheese in layers, in buttered pudding dish, and pouring over it milk, mixed with egg and seasoning, then baking till firm, in moderate oven, testing with knife, as for all custard mixtures.

Macaroni, rice, or other cooked cereal may be substituted for bread crumbs. More or less cheese may be used. One egg will often be sufficient, or three may be preferred. Whites and yolks may be separated and whites stiffly beaten, folded in last. Then bake in buttered pudding dish.

Or, use sour milk and heat it gently in double boiler until the curd forms, then proceed as above.

MACARONI AND SPAGHETTI

Macaroni and spaghetti are starchy foods, and dishes made from either are served in place of potatoes, and when combined with cheese, also as a meat substitute. If they are carefully and thoroughly cooked, they are pleasing in appearance and palatable. They should be cooked in rapidly boiling, salted water until tender, then drained and rinsed in cold water. This keeps the pieces from becoming mushy and sticking together. They may be used interchangeably in recipes, for they differ in form, rather than in content.

SPAGHETTI AND TOMATOES

Cook spaghetti in boiling salted water until tender. Drain and rinse. Put a layer of the spaghetti in a buttered baking dish. Cover it with a layer of stewed or canned tomatoes well seasoned with salt and paprika. Dot with butter, ½-inch cubes of bacon and onion chopped fine. Repeat layers until dish is full. Cover with buttered crumbs and put in an oven and bake until hot throughout. A little grated cheese may be sprinkled on each layer of tomatoes if desired.

MACARONI WITH CHEESE

1 cup macaroni
1½ cup white sauce (see page 28)
¼ cup chopped or grated cheese
Buttered crumbs

Break macaroni into pieces one inch long. Drop slowly into 2 quarts of boiling salted water and cook till tender (20 to 40 minutes); drain in a colander. Hot water poured over it will wash off some of surplus starch, and separate parts. Stir cheese into hot, well-seasoned white sauce and put macaroni and sauce in buttered baking dish in layers; sprinkle buttered crumbs on top and brown well in hot oven.

VEGETABLES

Vegetables should form a large part of our daily diet. They contain pure water and mineral matter and also health-promoting vitamines. In addition they contain woody fibres or cellulose which stimulate the intestines.

GENERAL RULES FOR COOKING VEGETABLES

Wash thoroughly. Pare, peel or scrape, if skins must be removed. Skins should be left on to keep in all the food value possible. Beets must never be peeled before cooking. Soak in cold water until ready to cook. Cook in freshly boiling salted water until tender.

Allow 1 teaspoon salt to 1 quart of water. Use enough boiling water to cover vegetables. Salt may be added when vegetables are put in, except in the case of delicate green vegetables, as peas, spinach, etc., when it should not be added until the vegetables are nearly done. To preserve the color of green vegetables, cook uncovered. Cabbage, onions and turnips should be cooked uncovered in a large quantity of water. By changing the water once or twice during the cooking, much of the strong odor and flavor may be lost. Water in which vegetables have been cooked is called vegetable stock and should never be thrown away but used in soups and sauces.

Winter vegetables should be kept in a cool, dark, dry place. Fresh vegetables may be washed and kept on ice in a clean piece of cloth.

MAYONNAISE DRESSING

A few grains of paprika	½ teaspoon mustard, if desired	1 tablespoon lemon juice
½ teaspoon salt	1 cup olive oil	1 tablespoon vinegar
The yolk of 1 egg		
1 teaspoon powdered sugar		

Mix the salt and paprika, add other seasonings, and the yolks; beat well, adding the acid, gradually, beating it in with a Dover egg-beater. When all the acid has been added, turn in a teaspoonful of olive or other vegetable oil and continue the beating; add oil, a teaspoonful at a time, three or four times, beating vigorously meanwhile; then add the oil by the tablespoonful until all has been used. At the last beat in two or three tablespoonfuls of boiling water. The boiling water is thought to keep the sauce from "turning" or curdling after it has been set aside. By adding all of the acid to the yolks before oil is used, the egg-beater may be used from the beginning. The larger surface over which the oil is spread lessens the liability of the mixture to curdle. After the sauce is mixed, cover with an earthen or glass dish and set aside in a cool place.

BOILED SALAD DRESSING

1 teaspoon salt
1 teaspoon mustard
2 teaspoons sugar
Few grains cayenne
2 tablespoons butter or oil

Add a little of the scalded milk, stir, pour it into the scalded milk. Cook in a double boiler, continue stirring until thickened. Pour it into the yolk mixture, return to double boiler, add the hot vinegar, stirring constantly until the mixture thickens. Cool before using. If cooked too long, it will curdle.

FRENCH DRESSING

¼ teaspoon salt
⅛ teaspoon white pepper
⅛ teaspoon paprika
½ teaspoon powdered sugar
Pinch of mustard
1 tablespoon lemon juice
1 tablespoon vinegar
4 tablespoons olive oil

Mix dry ingredients, add oil and stir till thoroughly mixed; then add vinegar and lemon juice, a few drops at a time and beat till an emulsion is formed. Or, ingredients may all be placed in a bottle and shaken vigorously together to form an emulsion.

CAKES

GENERAL RULES FOR PREPARATION

Have all necessary utensils and ingredients ready before starting work. A round-bottomed bowl is the best type of mixing bowl to use. A wooden spoon is more suitable to use for beating than a metal spoon, and is noiseless, too. For beating egg-whites a wire beater should be used.

Sift all dry materials before measuring. After combining dry materials, flour, baking-powder and spices, sift again. Break the eggs carefully and in separating see that no particles of the yolk are dropped in the whites. A few grains of salt improves the flavor of a cake.

Combine materials lightly and quickly.

Grease the cake pan in which "butter cakes" are baked with melted shortening and sift a layer of flour over this, then shake off surplus.

Pans for butterless cakes, such as sponge cake, should never be oiled, floured, or lined with paper.

Fill cake tins two-thirds full and press the cake mixture from the center to the corners of the pan so the finished product will be level on the top. Pastry chefs recommend a round pan with a tube for loaf cake.

The oven temperature and time required for baking depend upon the size and kind of cake. In general, oven temperature should be moderate and steady and increased gradually. If the temperature is too high a crust is formed before the cake has had a chance to rise fully, and the finished product will show cracks and uneveness. If the cake browns too quickly on top, cover with oiled paper. The cake should be placed in or near the center of the oven so it will bake evenly. The first five minutes of the baking, the oven door should not be opened and during the baking period not oftener than every ten minutes.

INGREDIENTS

The shortening used in cake making must be of the best quality. The equivalent for ½ cup of butter are as follows:

½ cup oleomargarine	7 tablespoons vegetable cooking fats	6½ tablespoons lard 1½ cups thick cream

If lard or vegetable cooking fat is used in place of butter the liquid should be increased slightly and cake mixtures beaten thoroughly. If cream is used, omit milk called for in recipe.

Fine granulated sugar makes a finer-textured crust than coarse granulated sugar. If coarse sugar is used it should be sifted and only the finer particles put in the mixture.

Pastry flour made from the winter wheat makes a lighter, whiter and more tender cake than bread flour made from the spring wheat. If bread flour is substituted about 2 tablespoons less to a cup should be used, or the cake mixture will be too stiff. Sifting the flour several times tends to give the cake a fine mixture.

Baking-powder is the most satisfactory and commonly used leavening agent.

When fruits and nuts are used they should be rolled in flour. Since nuts contain fat, the amount of butter or butter substitutes should be

reduced from 1 to 1½ tablespoons to each cup of nuts used. A few grains of salt add a desirable flavor to the finished product.

PLAIN CAKE

½ cup shortening
¾ cup sugar
2 eggs
1½ cups flour (pastry)
2 teaspoons baking-powder
½ cup milk
½ teaspoon flavoring

Cream the butter, add sugar gradually. Separate white and yolks of eggs. Beat yolks till light, add to creamed butter and sugar. Sift together remaining dry ingredients. Add these alternately with milk, beating thoroughly. Flavor with vanilla. Beat egg whites till stiff and fold these into batter. Bake in a moderate oven in a loaf pan for about 45 minutes.

SPICE CAKE

½ cup shortening
1 cup brown sugar
3 eggs
¾ cup water
1 teaspoon soda
3 cups flour
1 teaspoon mixed allspice, nutmeg, cloves
1 teaspoon cinnamon
Sprinkle ground mace
½ cup raisins
¼ cup currants
¼ cup citron

Mix as for other butter cakes. Raisins and currants should be chopped, or cut up fine. Citron will cut up more easily if first softened by steaming over hot water. Part of flour must be reserved to sift over fruit, which should be well beaten in, before stiff egg whites are folded in. Bake in loaf or tube pan, in very moderate oven, for about 50 minutes. It is usually well to line pan with several thicknesses of greased paper.

JELLY ROLL

2 eggs
⅞ cup sugar
Grated rind of lemon
1 cup flour
2½ teaspoons baking-powder
¼ teaspoon salt
½ cup hot milk

Beat eggs, add sugar and beat well. Add lemon rind. Sift flour with baking-powder and salt; add alternately with the milk. Bake 15 to 20 minutes in greased bread pan and turn out on a damp cloth. Spread with jelly and roll. Dredge top with powdered sugar.

MARSHMALLOW CAKE

½ cup shortening
1½ cups sugar
½ cup milk
2½ cups flour
3 teaspoons baking-powder
4 egg whites
½ teaspoon cream of tartar
⅛ teaspoon salt
1 teaspoon vanilla

Cream the shortening, add the sugar gradually. Mix and sift the dry ingredients, flour, baking-powder, cream of tartar and salt; add them alternately with the milk to the cream mixture. Lastly, add the stiffly beaten egg-whites and the flavoring. Bake in layer cake pans about 30 minutes in a moderate oven temperature. Put layers together with marshmallow frosting and ice with French cream frosting.

DEVIL'S FOOD CAKE

½ cup butter
2 cups sugar
1 cup milk
4 eggs
1 teaspoon vanilla
4 teaspoons baking-powder
¼ teaspoon salt
4 squares bitter chocolate
2½ cups flour (pastry)

Cream the shortening, add the sugar gradually and the egg-yolks that have been beaten until thick and lemon-colored. Mix and sift the dry ingredients, flour, baking-powder and salt; and add alternately with the milk. Lastly add the egg-whites beaten until stiff, melted chocolate and vanilla. Bake from 45 minutes to an hour in a moderate oven. Bake in round pan with tube.

ANGEL CAKE

7 egg whites
1 cup fine granulated sugar
¾ cup pastry flour
Few grains salt
1½ teaspoons baking-powder
1 teaspoon vanilla

Place the egg-whites on a platter and beat with a wire beater until foaming; add cream of tartar and continue beating until they are stiff. Add the sugar gradually by folding it into the egg mixture with a spatula or cake spoon, then fold in the dry materials, flour, baking-powder and salt, that have been sifted together four times. Lastly add the vanilla. Bake in a greased tube pan from 45 minutes to 1 hour in a moderate oven.

FRUIT CAKE

1 pound (2 cups) shortening
1 pound (2 cups) light brown sugar
7 eggs
1 pound (4 cups) flour
2 teaspoons mace
2 teaspoons cinnamon
2 teaspoons baking-powder
Few grains salt
2 tablespoons fruit juice
2 tablespoons milk
2 pounds currants
2 pounds raisins, seeded and finely chopped
½ pound date meats, finely chopped
½ pound citron, thinly sliced and cut into short strips

Cream the shortening, add sugar gradually and beat for 5 minutes. Beat the egg yolks until light and lemon-colored and the whites until stiff and dry. Add these to the butter and sugar mixture, then add the milk, fruit juice, chopped nuts and fruit that have been rolled in flour. Lastly, add the well-sifted dry ingredients (flour, spices, baking-powder and salt), beat the mixture thoroughly and place in deep, round cake pans lined with several thicknesses of oiled paper. Bake 3 to 4 hours in a slow oven. If the oven is difficult to regulate, cover the cake with several thicknesses of oiled paper the last hour of the baking.

MARTHA WASHINGTON PIE

Bake cream of sponge cake mixture in 2 layers. Cool; fill between layers and spread on top with whipped cream, sweetened and flavored with vanilla.

CAKE FROSTINGS AND FILLINGS

Good frosting requires as much skill in making as candy. Boiled frostings are more delicious than those made with confectioners' sugar. When sugar is scarce, omit frostings on cakes, and use fillings only.

BOILED FROSTING OR WHITE MOUNTAIN CREAM

1 cup sugar	1/16 teaspoon cream of	Whites of 1 or 2 eggs
⅓ cup water	tartar	1 teaspoon flavoring

Dissolve the sugar and cream of tartar in the water. Cover the saucepan first 5 minutes of cooking to prevent the formation of crystals on the sides of the saucepan. If 1 beaten egg is used, boil the sugar solution to the soft-ball stage, until it forms 2-inch threads when dropped from a spoon or fork. If 2 egg-whites are used, boil to the firm ball stage. The syrup should not be stirred during the process of cooking, nor the saucepan moved. If crystals do collect on the sides of the saucepan, remove with a wet cloth or wet brush. When the sugar solution has boiled to the right temperature pour it gradually into the stiffly-beaten whites of eggs beating continually while pouring and continue beating until of right consistency to spread on the cakes. Flavor.

VARIATIONS OF ABOVE

CREAM FILLING

¾ cup sugar	1 teaspoon salt	2 cups scalded milk
½ cup flour	2 eggs	1 teaspoon vanilla

Mix dry ingredients; add eggs slightly beaten and pour in gradually the scalded milk. Cook 15 minutes in double boiler stirring constantly until thickened. Cool and flavor.

Chocolate Cream Filling.—Add 1½ squares melted chocolate to Cream Filling mixture.

PASTRY

Pastry, if it is to be served at all, should be light, tender and flaky. It is then more easily digested.

Winter wheat flour, called pastry flour, should be used, as it makes the pastry more tender than bread flour. Less shortening is required when pastry flour is used.

The lightness of the pastry depends upon the amount of air enclosed and its expansion in baking.

The flakiness depends upon the number of layers of shortening and paste formed by folding and rolling.

All the ingredients must be cold.

Handle the dough as little as possible, and keep it as cold as possible, as heat melts the shortening and makes it difficult to handle the dough.

PIE CRUST

1 cup flour	½ teaspoon baking-powder	¼ cup shortening
¼ teaspoon salt		¼ cup ice water

Sift together the dry ingredients. Cut in the shortening as for Baking-powder Biscuits, using a large knife or spatula for this operation. The amount of water used will vary with the flour, so the proper consistency of dough must be learned rather than to place dependence on the measure of water. It is well to bear in mind that lard produces a flakier, whiter crust than any other shortening. Equal parts of lard and butter produce better pastry than butter alone. Dough must neither be sticky nor crumbly, and must be easily lifted from the bowl in one mass. If chilled, before rolling, it will be more easily handled. Toss on a floured board and roll lightly, keeping in a circular shape. Roll very thin. This recipe will make one small double crust pie. Bake the pastry shell about 12 minutes in a hot oven temperature.

SINGLE CRUST PIE

Roll the dough larger than the tin. Place carefully over the tin, as crust shrinks in baking. Flatten the crust to tin to press out air. If it is to be filled after baking, prick with fork. If for single crust pie, build up ridge to make greater depth and groove or "flute" the ridge in order that heat may stiffen it more quickly.

DOUBLE CRUST PIE

Fit the lower crust as for single crust pie, but do not build up edge. Have the upper crust rolled out before filling is put in, or else lower crust will become soaked and soggy. The upper crust should be rolled a little larger than needed. The filling should not be piled high, but levelled to avoid cooking over while baking. Moisten the edge of the upper and lower crust with water when the edges are being fluted.

The upper crust should always be perforated, so that the steam may escape. Attractive designs may be cut out with a knife or a pastry jagger. The perforated upper crust should be placed loosely and not stretched over the filling. For a juicy filling, add a small amount of flour to the sugar to prevent the juice escaping from the pie. Sometimes for berry pies, the lower crust is folded over the upper crust, thus making a thick three-layer edge to prevent the escape of the filling. Another way of keeping the juice from boiling out is to brush the bottom of the lower crust with white of egg. Double crust pies usually take between 40 and 50 minutes for baking and require an oven temperature of about 450° F.

Wash rhubarb, cut into ½-inch pieces. Mix with other ingredients. Line deep pie pan with pie crust. Fill with mixture, being careful not to heap up. Measure pan before mixing ingredients, so that no more may be prepared than pan will hold. COOKED RHUBARB

Wash peel and cut rhubarb in 1 inch pieces. If pink and tender, do not peel, as the color is much better if skin is left in. Add just enough water to keep from burning. When nearly done, add sugar to taste. Cook until tender.

STEWED PEARS

A little lemon juice or cinnamon may be added for flavor. Chopped nuts or raisins may be mixed with sugar for filling apples.

BAKED BANANAS

The general rule is: Use ½ as much water as cranberries. Add one-third as much sugar as cranberries.

Have water boiling. Add berries, cover, and cook till berries have burst outer skin. Add sugar and boil few minutes longer. Pour into mold. If desired, cranberries may be steamed before sugar is added.

PRUNES

Heat gradually in water in which they are soaked, and cook slowly (on back of range or over asbestos mat) closely covered, till skins are tender, letting water cook away till syrup is thick. They are best cooked in earthen jar, slowly, for 5 hours. Most prunes contain so much sugar that lemon juice improves the flavor. Seldom do they need sugar.

INVALID COOKERY

Food for invalids is usually classified as:

Liquid, including milk, cream soups and broth.

Soft, including soft cooked eggs, milk toast and custards.

Solid, including cereals, eggs, meat, vegetables and desserts.

The tray should be made as attractive as possible, never overcrowded. Cover it with a fresh napkin and use the daintiest china the household affords.

Fruit beverages and beef tea, though not especially nourishing, are useful stimulants to the jaded appetite.

Toast should be cut thin and crisped all through. It may be softened with hot milk or water. Cereals should be thoroughly cooked.

Cream soups add variety to the milk diet.

Gelatines and ices furnish a tempting means of serving liquid foods in solid form.

If disease is contagious, wash all dishes alone and sterilize by allowing to stand in boiling water.

OATMEAL GRUEL

¼ cup rolled oats 1½ cups boiled water ¼ teaspoon salt

Add oatmeal mixed with salt to boiling water. Boil two minutes. Cook in double boiler one hour. Strain, bring to boiling point and add milk or cream to thin or thicken.

RICE GRUEL

1 tablespoon rice 1 cup milk

Wash rice, cover with cold water and let stand two hours. Drain, add milk and cook one and one-half hours in double boiler. Strain and season. Serve hot or cold.

TOAST WATER

Good in cases of nausea.

Two slices of bread toasted until thoroughly dextrinized, 1 cup boiling water.

Break toast in pieces, add water and allow to stand one hour. Strain through cheese cloth, season and serve hot or cold.

FRUIT BEVERAGE

For all fruit beverages use syrup rather than sugar. Proportions, three-fourths cup sugar and three-fourths cup hot water, cooked ten or twelve minutes. Cool and bottle.

1½ tablespoon syrup 3 to 4 cups cold water 2 tablespoons juice (strained)

Amount of syrup varies with juices used.

BEEF BROTH

2 pounds meat from the shoulder or shin 2 pounds bone 3 quarts cold water 1½ teaspoons salt

Cut the meat into small pieces and put it with the cracked bone into kettle and cover with cold water. Set in slow oven and cook from 8 to 12 hours. Strain through colander, add salt to taste and cool quickly. When cold remove the fat. Serve cold, as a jelly or heat to the simmering point, but do not boil.

NOTE.—Reheat in double boiler; not direct heat, as it coagulates albumen.

CHICKEN BROTH

Cut 2 pounds chicken into pieces; cover with 2 pints cold water; add 1 small onion, simmer three hours or until meat is tender. Remove meat, cool stock, remove fat, reheat and add ¾ cup cooked rice. Season and serve.

Or the sugar may have been beaten in with eggs if desired. Add the flavoring when the custard is partly cooled.

FIRM CUSTARD

For this, the ingredients are the same and in the same proportion. Scald the milk, add the beaten eggs with which the sugar has been mixed. Add also salt and flavoring, which would better be ground cinnamon or nutmeg, rather than the liquid extracts. Strain into cups, rinsed in cold water, or into one mold. The custard may be either steamed over water or in a pan of water, or set in a pan of water and placed in the oven to bake. They are done when puffy on top and firm in center, or when a silver knife, inserted in the center, comes out clean.

JUNKET

2 cups milk 2 tablespoons sugar ½ teaspoon vanilla	2 teaspoons rennet, or ½ junket tablet	2 teaspoons lukewarm water

Heat the milk to lukewarm (99 degrees F.) in double boiler. Add sugar and flavoring, and stir until sugar is dissolved. Add rennet dissolved in water, and pour into dish from which custard is to be served. Let stand until cool and firm. Serve with cream, soft custard, fruit, or fruit syrup. Cinnamon, nutmeg, cocoanut, chocolate, cocoa, or other flavor may be substituted for vanilla.

BARLEY WATER

2 tablespoons barley 1 quart cold water

Stir white of egg with silver fork until albumen is set free. Add water gradually while stirring. Strain and serve.

ORANGE ALBUMIN

White 1 egg ⅓ cup orange juice Syrup

Stir white of egg with silver fork, add orange juice gradually and a little cold water. Strain and add syrup if necessary.

PEPTONIZED MILK

Put powder into a sterilized quart bottle, add water, and shake until powder is dissolved; add milk, shake and place on ice. Use as needed, always keeping remainder covered on ice.

Peptonized milk may be served warm by putting bottle in vessel of water (115 F.) and keeping at the same temperature 10 minutes. Serve immediately.

FRUIT

Date combination.

Chopped dates 6, butter 2 teaspoons, orange or lemon juice, few drops (2 sandwiches.)

Wash raisins and dates and put through chopper. Add a little salt, equal amount or more of peanut butter, syrup and a few drops of lemon juice. Lemon extract may replace lemon juice. Mix well.

(NOTE.—Cooked prune pulp may replace dates.)

Chop dates, add little sweet fruit juice, heat and rub to a smooth paste. Add shredded cocoanut and a few chopped nuts and orange or lemon juice. (Excellent with brown bread.)

Jams and jellies.

Ripe bananas mixed with chopped peanuts or peanut butter.

VEGETABLE

Plain lettuce with salad dressing.

Sliced tomato with salad dressing, or lettuce and tomato.

A small amount of diced, pickled cucumber with cottage cheese.

Pickled beets, chopped and mixed with cottage cheese.

Chopped celery, apple, nuts or olives (any proportion preferred), salad dressing.

Mixed pickle, sour or sweet, with chopped egg.

Mashed left-over beans or rubbed through colander, mixed with tomato sauce or salad dressing and chopped sour pickle or green pepper relish.

ADDITIONAL LUNCH BOX SUGGESTIONS

Hard-cooked eggs are frequently used. As a variation, the yolk may be removed, seasoned with salt, pepper, mixed with salad dressing and put back in the white. See Deviled Eggs Recipe pp. 40.

In addition to the sandwiches, there should be some fresh juicy fruit or vegetable, as apples, apple sauce, peaches, oranges, lettuce, tomatoes, celery.

Vegetable salads, such as potato salad, Boston baked beans and potato chips add variety to the lunch of the adult, but are not suitable for the child's meal away from home.

A bottle of milk should be included in the lunch boxes of school children.

For dessert, nuts and raisins, a few dates or figs are better and easier to carry than some other forms of desserts.

Custards, with varied flavorings, cereal puddings, and gelatine puddings are also good. These may be made in individual cups and packed in the lunch box.

Plain cookies, date or raisin cookies or sponge cake may be added as a dessert. Pie, pickles, doughnuts or griddle cakes, or rich cakes should not be included in the school lunch box.
